Installation Prerequisites

System Requirements :

- Microsoft Windows SharePoint Service 3.0
- Microsoft Office SharePoint Server 2007
- SharePoint 2010 Foundation or SharePoint 2010 Server

Supported Browser:

- Internet Explorer 6, 7, 8
- FireFox 3.0+
- Safari 4.0+
- Chrome

Language Support:

1. English

Installation Procedure

The News Rotator installation package contains the installation files for the following three components: License Manager Installation, News Rotator web part installation and Product Activation Tool Installation.

Name	Date modified	Type
 FireArrow.License1.0.0.0	2/25/2011 3:45 PM	File folder
 NewsRotator1.0.0.0	2/25/2011 3:45 PM	File folder
 ProductActivation1.0.8	2/25/2011 3:45 PM	File folder
 News_Rotator_ManualV1	2/25/2011 3:54 PM	Adobe Acrobat D...

License Manager Installation

The License Manager is only required to install once on a server. If you have already installed it with other FireArrow products before, you can skip the installation steps but need to ensure it is deployed globally. To verify the installation and deployment, follow below steps:

1. Log into the SharePoint Central Administration. Go to the “System Settings” and select “Manage farm Solutions” under the “Farm Management” section.

Farm Management

[Configure alternate access mappings](#) | [Manage farm features](#) |

[Manage farm solutions](#) | [Manage user solutions](#) |

[Configure privacy options](#) | [Configure cross-firewall access zone](#)

[Deploy or retract solution packages across the farm](#)

2. Check if “firearrow.sharepoint.license.wsp” is in the solution list or not. If it is, it means License Manager has been already installed. If not, please skip to the next section to install the License Manager.

firearrow.sharepoint.advancedrssviewer.wsp	Deployed	http://sp2010test.env.firearrowsoft.com/
firearrow.sharepoint.license.wsp	Deployed	Globally deployed.
firearrow.sharepoint.livebanner.wsp	Deployed	http://sp2010test.env.firearrowsoft.com/

Note: During the installation process, the license manager solution is deployed globally

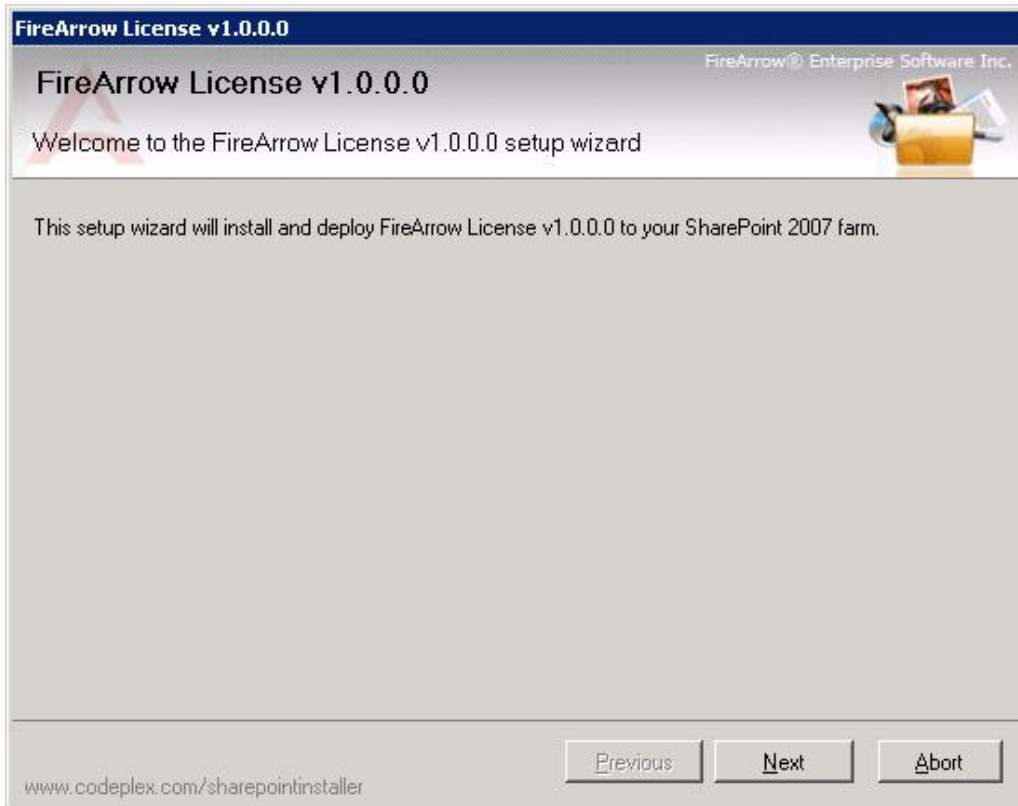

License Manager Installation Steps:

The steps to install the License Manager are as followed. You must be the SharePoint Farm Administrator for a successful installation.

1. Open the folder for License Manager Installation and run “Setup.exe”.

Name	Date modified	Type	Size
banner	4/18/2010 5:08 PM	JPEG image	17 KB
EULA	7/13/2009 9:36 AM	Rich Text Format	10 KB
FireArrow.SharePoint.License	8/25/2010 2:41 PM	WSP File	33 KB
Setup	4/1/2010 3:18 AM	Application	387 KB
Setup.exe	8/15/2010 11:54 PM	CONFIG File	1 KB

2. The setup wizard will be displayed. Click “Next” to proceed.

3. Wait for system check to complete and then click “Next”.

4. After you have read and accepted the License Agreement, click “Next” to continue.

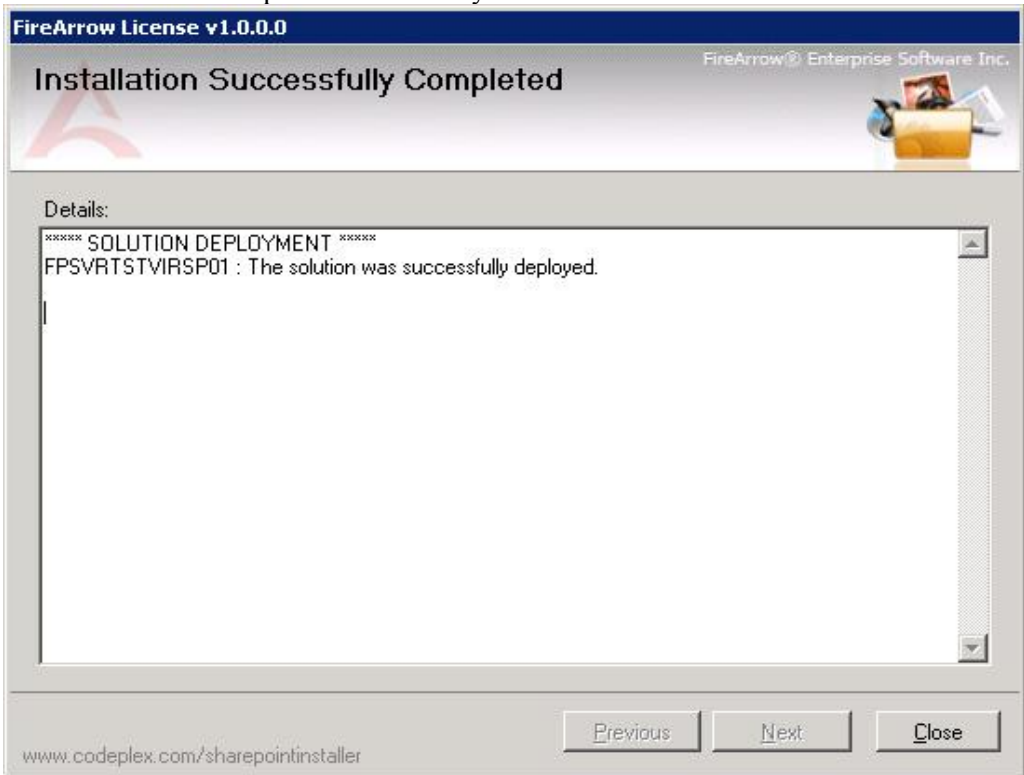

5. Select one or more target web applications and then click "Next".

6. The wizard starts installing and display the installation progress.

7. Installation is completed successfully and clicks “Close” to exit the wizard.

Product Activation Tool Installation

The Product Activation Tool will be used to active FireArrow products. Just like the License Manager, it is also only required to install once on a server.

- Open the folder for Product Activation installation and run “Setup.exe”.

Name	Date modified	Type	Size
 FireArrow.ProductActionvation.Installer	8/25/2010 4:05 PM	Windows Installer ...	537 KB
 FireArrow.ProductActivation	8/25/2010 4:05 PM	Application	184 KB
 FireArrow.ProductActivation.RunAs	8/25/2010 4:05 PM	Application	76 KB
 setup	8/25/2010 4:05 PM	Application	421 KB

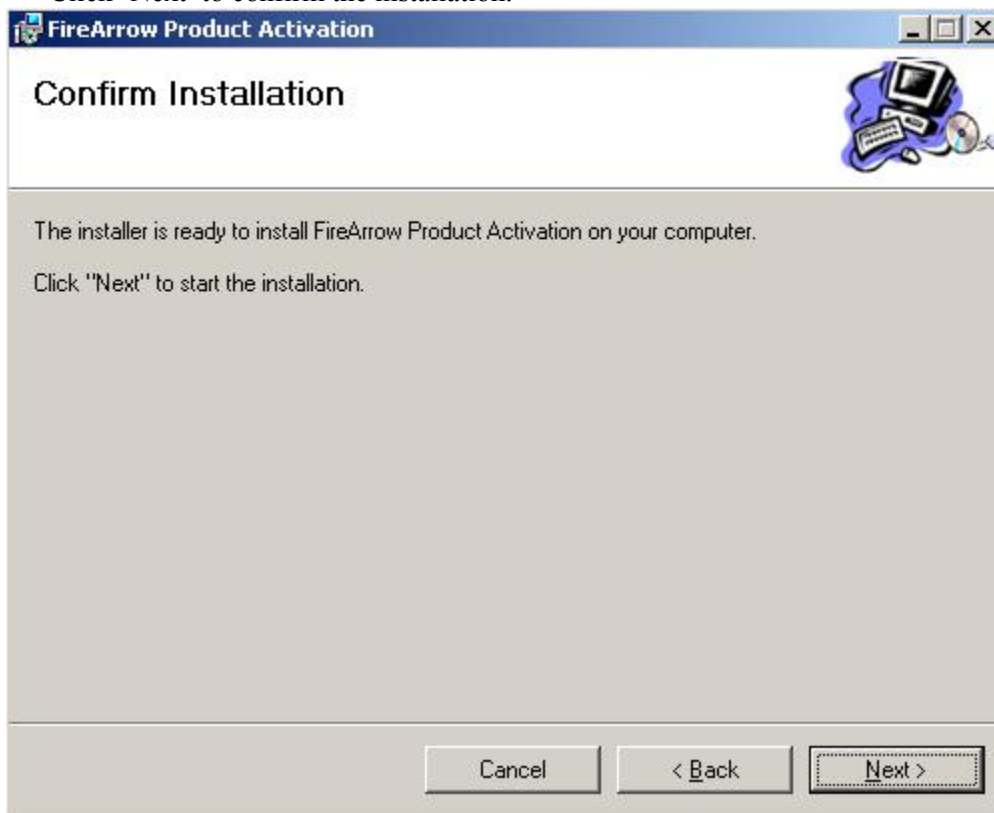

- The setup wizard will be displayed and click “Next” to proceed.

- Select the installation folder, and click ‘Next’.

- Click 'Next' to confirm the installation.

- The wizard starts the installation and display the installation progress.

- Installation is completed successfully and clicks "Close" to exit the wizard.

News Rotator Web Part Installation

We provide two installation approaches for News Rotator web part installation. One is to use the installation wizard for automatic installation. The other way is to use STSADM command tool for manual installation. This section describes both approaches in detail.

Automatic Installation Approach

The News Rotator installation package contains the installer file, solution package file, image, and etc. You must be the SharePoint Farm Administrator for a successful installation. Please follow the following steps for installation.

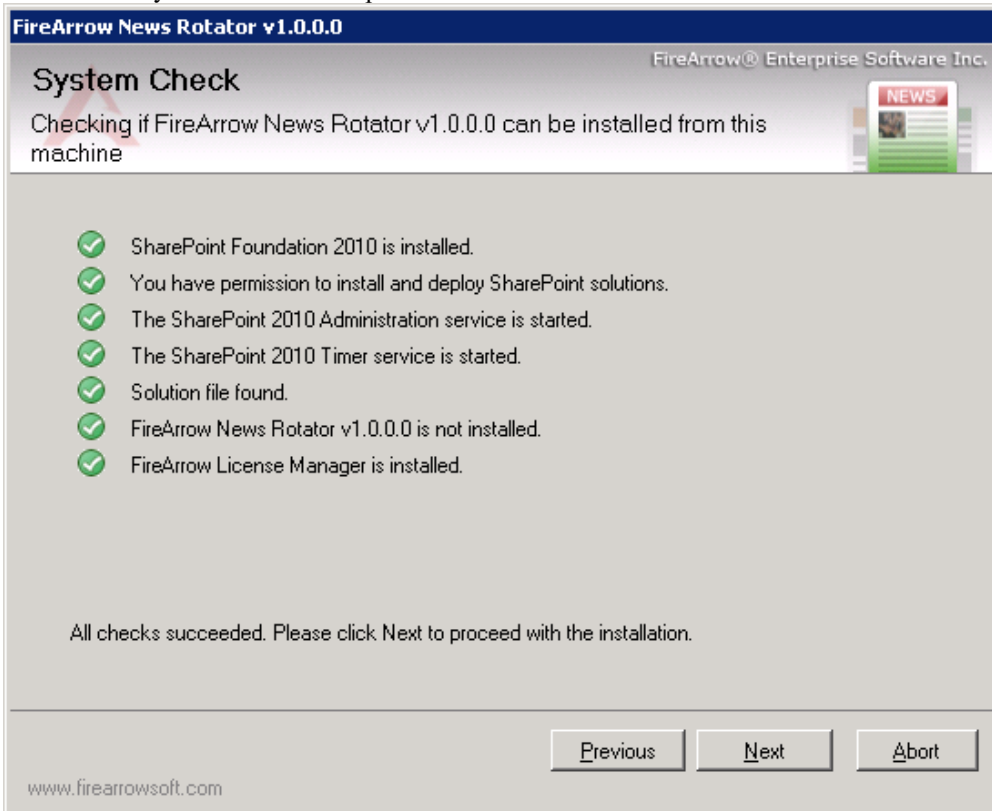

1. Open the folder for NewsRotator installation and double click the “Setup.exe” to start the installation.

Name	Size	Type
 banner	14 KB	JPEG image
 EULA	10 KB	Rich Text Format
 FireArrow.SharePoint.NewsRotator	92 KB	WSP File
 Setup	429 KB	Application
 Setup.exe	2 KB	CONFIG File

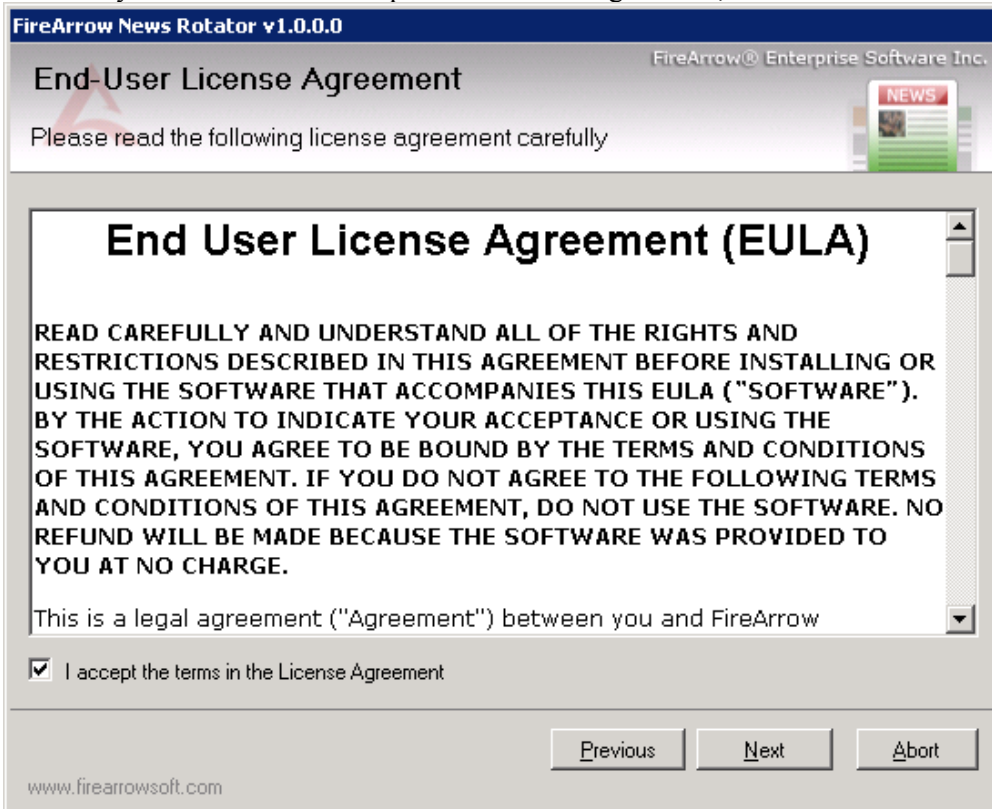

2. The setup wizard will be displayed. Click “Next” to proceed.

3. Wait for system check to complete and then click “Next”.

4. After you have read and accepted the License Agreement, click “Next” to continue.

5. Select one or more target web applications and then click "Next".

6. The wizard starts installing and display the installation progress.

7. Installation is completed successfully and clicks “Close” to exit the wizard.

Manual Installation Approach

The folder for NewsRotator installation contains the solution package which you need for manual installation.

Name	Size	Type
 banner	14 KB	JPEG image
 EULA	10 KB	Rich Text Format
 FireArrow.SharePoint.NewsRotator	92 KB	WSP File
 Setup	429 KB	Application
 Setup.exe	2 KB	CONFIG File

The steps for manual installation are as followed:

1. Copy the solution package to the server farm and run following commands to add solutions to the server farm:
`stsadm.exe -o addsolution -filename "FireArrow.SharePoint.NewsRotator.wsp"`
`stsadm -o execadmsvcjobs`
2. Then you need to deploy the solution package. You can deploy the solution package either by running STSADM commands or using the SharePoint 3.0 Central Administration web interface.

Option 1: running STSADM commands

You need to run the following two commands for solution deployment:

- 1) stsadm -o deploysolution -name "FireArrow.SharePoint.NewsRotator.wsp" -immediate -url http://qa.test.FireArrowsoft.com -force -allowCasPolicies

Note: replace the url (http://qa.test.firearrowsoft.com) with your target web application's url.

- 2) stsadm -o execadmsvcjobs

Option 2: using SharePoint 3.0 Central Administration Interface

- 1) Log into the SharePoint Central Administration. Go to the "System Settings" and select "Manage farm Solutions" under the "Farm Management" section.

- 2) Select the solution "FireArrow.SharePoint.NewsRotator.wsp", and then select Deploy Solution from the Solution Properties.

firearrow.sharepoint.license.wsp	Deployed	Globally deployed.
firearrow.sharepoint.livebanner.wsp	Deployed	http://sp2010test.env.firearrowsoft.com/
firearrow.sharepoint.news.2010.wsp	Deployed	http://sp2010test.env.firearrowsoft.com/
firearrow.sharepoint.newsrotator.wsp	Deployed	http://sp2010test.env.firearrowsoft.com/
firearrow.sharepoint.photoviewer.wsp	Deployed	http://sp2010test.env.firearrowsoft.com/
firearrow.sharepoint.ratingandreview.2010.wsp	Deployed	http://sp2010test.env.firearrowsoft.com/
firearrow.sharepoint.ratingandreviewwebpart.wsp	Deployed	http://sp2010test.env.firearrowsoft.com/

[Deploy Solution](#) [Retract Solution](#) [Back to Solutions](#)

Name:	firearrow.sharepoint.newsrotator.wsp
Type:	Core Solution
Contains Web Application Resource:	Yes
Contains Global Assembly:	No
Contains Code Access Security Policy:	Yes
Deployment Server Type:	Front-end Web server
Deployment Status:	Deployed
Deployed To:	http://sp2010test.env.firearrowsoft.com/
Last Operation Result:	The solution was successfully deployed.
Last Operation Details:	FPSVRDEVVIR027 : http://sp2010test.env.firearrowsoft.com/ : The solution was successfully deployed.
Last Operation Time:	2/24/2011 6:47 PM

- 3) Set the deployment job schedule and choose the target web application where the solution will be deployed.

<p>Solution Information</p> <p>Information on the solution you have chosen to deploy.</p>	<p>Name: firearrow.sharepoint.newsrotator.wsp</p> <p>Locale: 0</p> <p>Deployed To: http://sp2010test.env.firearrowsoft.com/</p> <p>Deployment Status:</p>
<p>Deploy When?</p> <p>A timer job is created to deploy this solution. Please specify the time at which you want this solution to be deployed.</p>	<p>Choose when to deploy the solution:</p> <p><input checked="" type="radio"/> Now</p> <p><input type="radio"/> At a specified time:</p> <p>2/25/2011  12 PM  00 </p>
<p>Deploy To?</p> <p>The solution contains Web application scoped resources and should be deployed to specific Web applications. Please choose the Web application where you want the solution to be deployed.</p>	<p>Choose a Web application to deploy this solution:</p> <p>http://fpsvrdevvir027/ </p> <p>Warning: This solution contains a Code Access Security policy. Deploying this solution will change the effective trust policy. Do not proceed unless you trust the solution provider.</p>

After the solution is deployed to target web application, run the command “iisreset /noforce” to restart IIS.

Post-Installation Tasks

After installation, you need to perform the following steps to active the feature before the web part is ready to use.

1. Go to the Site Settings page: click “Site Actions”→ “Site Settings”.

2. Select “Site collection features”.

3. Click “Active” Button to active FireArrow News Rotator Web Part.

	FireArrow Advanced RSS Viewer Provides elegant view styles and dynamic rich features to aggregate and display information from various RSS feeds.	Deactivate	Active
	FireArrow Live Banner Web Part Offers an effortless way to display and manage live banners in SharePoint Sites. It provides a lot of rich features, styles and controls to display image banners from SharePoint picture library.	Deactivate	Active
	FireArrow News Rotator Web Part Provides elegant display styles, dynamic features and flexible configurations to rotate headline news.	Deactivate	Active
	FireArrow News Solution Features Provides customized news library, fields, content types, master pages and page templates to create and manage news articles for a site collection.	Deactivate	Active
	FireArrow Photo Viewer Web Part Provides elegant viewer styles, transition effects and features to display images from a SharePoint picture library.	Deactivate	Active

Un-installation

You can use FireArrow News Rotator Web Part Installer to uninstall News Rotator Web Part.

To uninstall the web part:

- 1) Run the setup.exe.
- 2) Select the radio button for “Remove” and click “Next”, the web part will be uninstalled.

License Management

The FireArrow News Rotator is allowed to use for 30-days after the installation without license activation. It is always recommended to provision your valid license activation key immediately after the installation is completed. Please go to the FireArrow web site (<http://www.firearrowsoft.com>) to purchase the software.

After the software purchase, please email us (support@firearrowsoft.com) the following information in order to generate the product activation key:

1. Product key
2. Order confirmation #

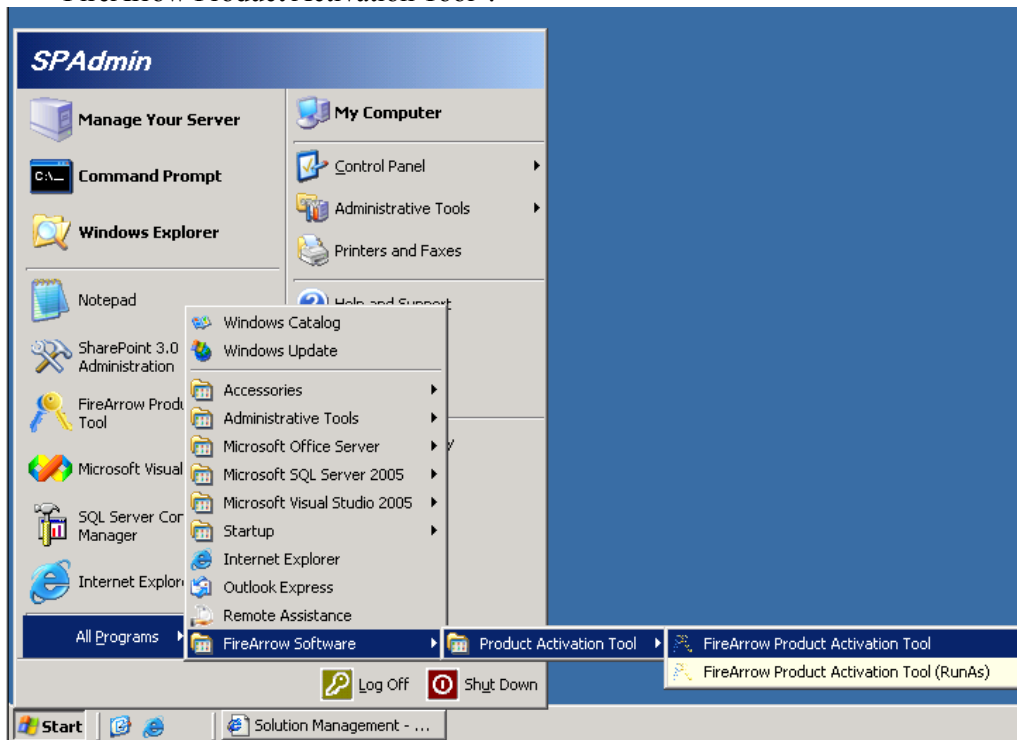

We will email you the product activation key.

You can obtain the product key information through the Product Activation Tool. Please follow steps in the below section to obtain the product key and complete the license activation.

License Activation

After the Product Activation Manager is successfully installed, follow below steps to obtain the product key information and activate the FireArrow product license in your server.

- Go to “Start” menu → All Programs → FireArrow Software → Product Activation Tool and click “FireArrow Product Activation Tool”.

- Select the ‘FireArrow News Rotator’ from the product dropdown list and the corresponding product information will be displayed in the form, including the “Product Key” information. You can also see the license status from the “Status” field. Before activation, the status will indicate you are using a trial version.

The screenshot shows the 'FireArrow Product Activation Tool' window. The title bar reads 'FireArrow Product Activation Tool'. The main heading is 'FireArrow Product Activation'. The interface includes the following fields and controls:

- Logon as:** A text box containing 'FPSPTRN\SharePoint' and a checked checkbox labeled 'Is Farm Administrator'.
- Select a product:** A dropdown menu showing 'FireArrow News Rotator Web Part'.
- Description:** A text box containing the text: 'Provides elegant display styles, dynamic features and flexible configurations to rotate headline news.'
- Version:** A dropdown menu showing '1.0.0.0'.
- Select a edition:** A dropdown menu showing 'Standard'.
- Select a license:** A dropdown menu showing 'Server'.
- Select a server:** A dropdown menu showing 'FPSVR004'.
- Product key:** A text box containing '11RPS-BRVRT-RSSJS-R00NE-VBNEV'.
- Status:** A text box containing 'You are using a trial version and it is about to expire in 30 days.' To the right of this field are two links: 'Refresh' and 'Help'.
- Activation key:** An empty text box.

At the bottom of the form are three buttons: 'Activate', 'Deactivate', and 'Cancel'.

- Once you get the Activation Key, enter it into the ‘Activation Key’ field, and click ‘Activate’ button.

- Click OK in the pop-up window to confirm the activation. And you will notice that the message in the Status field is changed to “The product is activated”. The product activation is completed.
